Work Experience

Nelnet Philippines Inc.

Manila

Senior Software Engineer

Dec 2023 – Present

- Led a team in building an in-house Human Resource Management System (HRMS) while delivering scalable applications for Nelnet Business Services.
- Built full-stack solutions using ASP.NET Core, Angular, and microservices-based architecture.
- Leveraged AWS and Azure cloud services for serverless, containerized, and CI/CD pipeline solutions.
- Mentored team members, conducted code reviews, and guided adoption of best practices.
- Championed DevOps practices, improving deployment reliability and reducing delivery cycle times.

Prosource BPO

Manila

Senior Software Engineer

May 2023 – Oct 2023

- Guided a distributed team maintaining and enhancing enterprise client products using C#, Angular, Azure, VueJS, and Ionic.
- Collaborated with Product Owner to align business goals with technical deliverables.
- Introduced CI/CD improvements and DevOps practices to accelerate delivery.
- Oversaw design and development of new features while maintaining high product quality.

Arcanys / XLR8 Hub Inc.

Cebu

Software Engineer

Mar 2022 – Mar 2023

- Led development team for client projects, using ReactJS front-end and ASP.NET Core back-end.
- Acted as primary liaison with client stakeholders for requirements and delivery updates.
- Introduced coding standards, best practices, and technical documentation processes.
- Fostered collaboration between designers, QA, and developers for seamless product integration.

Sprobe Inc.

Cebu

Software Engineer

Aug 2019 – Mar 2022

- Directed a small team to deliver systems for Japanese and Singaporean clients.
- Utilized ReactJS, ASP.NET Core, and cloud-native approaches for robust, scalable systems.
- Drove best practices in testing, reviews, and architecture.
- Coordinated cross-functional collaboration with designers, PMs, and testers.

Code Republic / Ark Creative Studio

Cebu

Software Engineer

Jan 2016 – Aug 2019

- Delivered scalable web/mobile applications using ReactJS, NodeJS, Laravel, Angular, and serverless technologies.
- Worked directly with clients, translating business requirements into technical solutions.
- Produced documentation and maintained high coding standards.

Central Mindanao University

Mindanao

Software Engineer

Apr 2015 – Aug 2015

- Designed and developed the Library System for Research and Thesis Management using VueJS (front-end) and Laravel (back-end).
- Implemented duplicate detection and optimized schema for large-scale academic research.
- Trained end users and deployed across university departments.
